WHY HAT-TECH Laser Slat Cleaner ?

Multiple cleaning increases the service life of your laser slats before having to replace the slats. For use on most manufacturers such as Bystronic, Trumpf, Amada , Mitsubishi , Mazak and more both Co2 and fiber type laser machines.

We focus on laser slat cleaner and optimize our design continuously and We have our own unique shape, internal structure, executing units and other design. All of these have achieved successful cleaning results in particaş applications. We manufacture our laser slat cleaner with most strict standard. Breakers are most our trust powered by Sandvik Coromant.

Can be operated by one person cleaning takes place while operation is running (on flatbed laser machines with a pallet changer) Cost reduction up to %80 compared with regular slats replacement. Cleans a standart laser table (3m X 1.5m) approximately 12min. dula cutters lift slag from both sides of the slats.

Breakers are working in clockwise in the meantime machine uses it's own weight to ove forward without external push. We designed More Light , More effiience and More Durable slat cleaner. We use Bohler K340 double blades powered by Sandvik Coromant.

No more primitive working Methods !!!!!

What will you get ?

QUICK CLEANING

Fridays are your cleaning days right? With our machine you can clean even everyday!
2 tables less than 1 hour!

SLAT CHANGING COST

Generally slats are getting changed several times in a year if you don't use a proper cleaning machine. You can multiply the lifetime by using our machine.

ALWAYS CLEAN SLATS

Clean slats always help to get better cutting results. Don't leave them unattended! They need you to clean them. Sideb cleaning machine keeps them clean!

OPERATOR SAFETY

Don't climb on the machine or step on the table please! That's dangerous! Use Sideb cleaning machine without putting you in danger.

REASONABLE SPARES

Don't pay a fortune for spare grinders! Our cleaning machine is your best friend when it comes to cost!
