VERTICAL SHEET RACK

ABOUT THE VERTICAL SHEET RACK

The Vertical Sheet Rack from Roll Out Racks is designed for storage of smaller pieces, cut pieces, partial sheets, and leftovers from cutting and other operations.

CHARACTERISTICS

The vertical sheet rack stores a variety of sizes and shapes of sheet material, held vertically on a rolling drawer that facilitates loading and unloading.

- The Vertical Sheet Rack is small and compact, can be placed close to the operating equipment.
- Rack and contents are highly visible.
- Each non-skid drawer extends fully from the rack.
- Each drawer is easily extended by one person.
- Each sheet is available quickly, easily, and safely.
- Each frame section holds up to 15 rollout mounts.
- Rapid access to sheets makes for reduced operating costs.
